

Dear Representative/Senator _____

If Congress does not act before a looming December 31, 2011 deadline, outpatient therapy services will be placed under a hard Medicare Therapy Cap. The below [individual/patient] asks that Congress take legislative action to address the therapy caps in 2011 to prevent the therapy cap from going into place on January 1. The cap limits access to needed outpatient therapy services for seniors and persons with disabilities that need the care the most. The undersigned [individual/patient] requests your support to ensure that outpatient therapy benefits under Medicare are not subject to an arbitrary therapy cap beginning on January 1, 2012. Please cosponsor “The Medicare Access to Rehabilitation Services Act of 2011” (H.R. 1546/S. 829), legislation that will eliminate the therapy cap once and for all.

Sincerely,

[Name]
